

The overall size of the cart is 38" tall x 36" long x 22" wide. The main construction is durable molded plastic. The handle is rubber coated metal and all of the storage compartment brackets are formed solid steel rods. The storage compartment consists of tear-proof see-through nylon mesh with nylon cloth support points and corners. The wheels are heavy-duty industrial quality with the rear accessible for use as a foot brake. A rear pouch is designed to accept a woman's purse or other personal items. The carts are equipped with tabs on the rear frame for nesting capabilities.
